

Vina *Pedrosa*

Crianza 2015

The 2015 vintage began in a winter with good water reserves in the subsoil. The warm, dry spring weather continued until June when heavy rainfall coincided with the onset of flowering. Summer brought the odd storm and was followed by a very dry autumn. Although the harvest was slightly earlier than usual, the analytical and organoleptic characteristics as well as the balance of the berries were ideal, which meant the fruit could be harvested at the perfect stage of ripeness. Wines from this excellent vintage have a good colour intensity, significant fruity notes on the nose and a high tannic potential on the palate, with sweet tannins revealing the good phenolic ripening of the berries. This vintage is reminiscent of the exceptional 2005 vintage.

CONSERVATION AND PREFERRED CONSUMPTION

Average yield per hectare: 4,500 kg.
Production: 250,000 bottles of 75 cl and 7,000 magnums
Bottling date: July 2017
Alcohol content: 14.5%

AWARDS:

Guía Gourmets  95 points

Guía Peñin  93 points
