- Resting in bottle: minimum 6 months.
- Production: 262.000 bottles
- Bottling date: July 2024
- Alcohol content: 14.5%

TASTING NOTES

👁 Intense cherry red with purple rims.

👃 Suggestive and very expressive on the nose, aromas of berries stand out along with delicate aromas of ageing (vanilla, coffee, balsamic notes, toffee and Chinese ink).

🍷 On the palate it is broad, very rich, with nerve and succulent tannins. The aftertaste is intense and has a lingering finish.

CONSERVATION AND PREFERRED CONSUMPTION

Serving Temperature: 16-17 °C

8-10 years potential storage in optimal conditions of 13-14 °C and 60% relative humidity, without temperature fluctuations.

VINTAGE 2022

Harvest 2022 was marked by very little rainfall and mild temperature. Thanks to water reserves from year before, the vineyard had a good phenological cycle. The vines development was a little bit earlier than 2021 and fortunately there was no hail atormentado and frost neither. Both sprouting and bloom were perfect and the vines development was well balanced.

The lack of rain promoted good health during the spring.

The summer was extremely hot but thanks to all the trees preserved and new trees planted over the years and also the perfect handle of cover crops, the vegetative development was optimum. The ripening was slower than years before.

The weather conditions were perfect during the harvest. It started September 22nd and finished October 12th. The 2022 vintage was very good but short on quantity. Wines from vintage 2022 will be long-lasting wines.

The regenerative grape-growing developed by Bodegas Hermanos Pérez Pascuas has made possible to get top quality grapes even do the year was so complicate for grapegrowers in Ribera del Duero
